## Annex 1

### COVID – 19 Payment Forbearance Program

As a result of the COVID-19 crisis, the government of El Salvador has requested financial institutions to grant payment forbearance on all consumer loan debt payments, including mortgage loan payments, through June 30, 2020. To accommodate this request, local banking regulators have issued new guidelines permitting financial institutions to grant such forbearance without triggering reserve requirements that would normally be required when granting such forbearance to clients.

La Hipotecaria, S.A. de C.V. (“LH”) has complied with the government’s request to grant forbearance on all mortgage loans it services for clients, whether such client is a borrower of a mortgage loan is held as asset of LH, or a borrower, (“Borrower”) of a mortgage loan owned indirectly by and securing any securitization transaction, such as this transaction.

Payment forbearance, (“COVID-19 Forbearance”) is being granted under the following conditions: 1) COVID-19 Forbearance will only be granted to borrowers (including Borrowers) that were not delinquent on their mortgage payments for more than 90 days as of February 29, 2020; 2) The amount of COVID-19 Forbearance will be determined automatically by calculating the partial or complete mortgage payments not received by the borrower during the months of March, April, May or June of 2020 (the “Forbearance Period) as determined immediately prior to the close of each of the respective calendar months during the Forbearance Period; 3) COVID-19 Forbearance will be advanced individually to each borrower and allocated by LH’s servicing system according to the borrower’s individual priority of payments (first to collection fees, then insurances, then interest\* then principal\*). 4) The amount of COVID-19 Forbearance applied individually to each borrower will be registered as an “accounts receivable” from the individual borrower, (or in the case of Borrowers, as an “accounts receivable” from the respective trust, to be collected from the individual Borrower of that trust and not directly from the trust); 5) The eventual pace of the collection of accounts receivables from individual borrowers will be determined at a future date by LH. It is contemplated that such collections will involve an increase of the borrower’s monthly mortgage payment over particular period of time that will amortize the accounts receivable, with or without the charge of interest, and applying such increase *first* to the amortization of accounts receivables *before* applying the remaining (and unaltered) monthly payment to the borrower’s individual account.

\*In regard to Borrowers that are debtors of individual securitization transactions, the amounts corresponding to interest and principal as allocated by LH’s servicing system will be advanced in cash by LH as Servicer and deposited into Available Funds as per its normal obligations under the Servicing Agreement and collected individually from the Borrower, mentioned in point 5 above.
